These are most commonly used in kitchens which do not require frequent, daily adjustment.</p> <p>Manual lifts are adjusted in height using a crank handle. They can be used with countertops, with or without an edge. The crank handle socket can be positioned anywhere along the front edge, except under a sink or hob. Lifts can be adapted to most standard kitchen components. Lifts are available for countertops of any length between 23.6" and 118.1". Height adjustable 11.8".</p>
